The Ideal Trip for every American

NEXT year-1915-California and her two great ex positions invite the world to the grandest dis play of resources and achievements along all lines of human endeavor that has ever been presented

> Panama-Pacific International Exposition, San Francisco Feb. 20-Dec. 4, 1915 Panama-California Exposition San Diego. "all year" Jan. 1-Dec. 31, 1915

Equally as great as these Expositions themselves are the scenes of beauty and grandeur en route. In planning your trip you will naturally wish to select the route that will permit you to see the most on the way -the glories of the Rockies, Royal Gorge, beautiful Salt Lake City and Great Salt Lake: side trip to Yellow stone Park at nominal cost, through famous Feather River Canon and on to the Golden Gate. A trip that baffles description by pen or brush. And all this wealth of scenie grandeur is yours
